

Convex Round Inlet Solid Stream Jet

CCRP
CRP

- High impact solid stream nozzle.
- The cone shaped inlet penetrates further into the supply pipe than regular nozzles. This prevents floating particles from flowing into the nozzle, thereby reducing clogging.
- The CRP series features high-purity alumina ceramic orifice providing stable performance with longer life.

[STANDARD PRESSURE]

2.0 MPa

[APPLICATIONS]

Cleaning: Wire and felt parts of paper making machines, machinery, parts, vehicles, returnable containers, bottles
