# **Slit Nozzles**

- · Water or air sprayed from slit nozzles is uniform in width direction.
- · SLNH-H series for liquid spraying with even spray flow distribution. SLNHA-H series for air spraying with even spray impact distribution.
- Thin liquid film spray saves cost for chemicals and water.
- Compact and space-saving design.

#### [APPLICATIONS]

Blow-off drying, cleaning, developing, etching

Material	• S304 or PVC								
Series	Slit length	th opening		Number of inlets	Thread size		Total length	Weight (kg)	
	ℓ(mm)				Inlet	Mounting	L*2 (mm)	S304	PVC
SLNH -H (Liquid (spraying)	460	0.1	410	2	Rc3/8	S304: M5 (depth 8 mm) PVC: M5 (depth 10 mm)	490	4.3	1.3
	600		550				630	5.5	1.6
	700		650		Rc1/2		730	6.4	1.9
	780		730				810	7.1	2.1

	1,200		56.6	83.4	105	123	139	154	168	181	204	
SLNHA-H (Air (spraying)	530	0.1	201	353	465	564	656	736	812	884	1,011	
	700		265	466	614	745	867	972	1,072	1,168	1,335	
	810		306	539	710	862	1,003	1,125	1,240	1,351	1,545	
	900		341	599	789	958	1,114	1,250	1,378	1,502	1,717	
	1,400		530	932	1,228	1,491	1,733	1,945	2,144	2,336	2,671	

- \*3) The above spray capacity indicates liquid flow rate for the SLNH-H series, and air flow rate for the SLNHA-H series.
  - The measure for air flow rate is L/min at normal conditions (0°C, 1 atm).
  - The above spray capacities are for reference only and subject to design changes.

### **HOW TO ORDER**

Total length can be tailored to your needs within the customizable range (see \*2 above). Inquiry drawing forms for each series and material are available to verify dimensional specifications. Contact us for details.

(These nozzle series are made-to-order.)

# **SLNH-K** SERIES for Etching/Developing Made-to-Order

Picture	Features	Applications
	Made of PVC.     Quick on/off spray response.     No bolts in the liquid flow path, ensuring smooth spray formation of a liquid film.	Developing solution coating     Etching solution coating     Water curtain

# We offer a wide range of slit nozzles for air blowing. For more details, please refer to our Air Nozzle Catalog.

#### **SLNHA-NA** SERIES

No need to adjust the slit after maintenance, enabling self-maintenance.

#### **SLNB** SERIES

Blower-type air slit nozzle uses only one-third of the energy compared to compressed air nozzles.

# **SAP** SERIES

Compact design, ideal for tight spaces. Can be used with either compressor or blower air.

# **VZ** SERIES

Flat blow pattern with a wide angle. Steam spraying is also possible.
